1 This value is equal to the customer availability fee plus the equivalents flow rating of the water meter. The equivalents factor is obtained by dividing the American Water Works Association (AWWA) standard for flow rating of water meters by the AWWA standard flow rating for a 3/4 inch water meter. 2 Water taps larger in size than 3/4 inch shall be approved by the Public Services Director. Charges shall be developed from labor, materials, equipment used, plus 20 percent for overhead and insurance. 3 Sewer taps of a size larger than 4 inches shall be approved by the Public Services Director. Charges shall be developed from labor, material, equipment used, plus 20 percent for overhead and insurance. 4 Residences shall include owner occupied single family dwellings and manufactured homes located on occupant owned land. 5 This category shall include apartments, homes, or any other rental units. Also included are mobile homes located on rental spaces regardless of ownership. 6 Shall consume less than 20,000 gallons per month and may include institutions.
